Dear colleagues, dear friends,

On behalf of the Managing Board of the Croatian Neurosurgical Society as well as of the Organizing Committee, I have the honor and pleasure of inviting you to the **9th Congress of the Croatian Neurosurgical Society and Joint Meetings with the Czech Neurosurgical Society and Swiss Society of Neurosurgery**, and a very special **symposium on CSF physiology** organized in collaboration with **the Japan Neurosurgical Society and Medical School of the University of Zagreb**. This exceptional gathering will take place in Vodice near Šibenik, at the midpoint of the Croatian Adriatic coast, from the **24th to the 26th September 2020**.

From its inception almost a quarter of a century ago, the Congress of the Croatian Neurosurgical Society has outgrown its' initial scope of a national neurosurgical specialists' meeting to grow to a regional melting pot of exchange of knowledge, experience and up-to-date management strategies in the different fields of the noble art of neurosurgery. We will once again bring together prominent Croatian and European neurosurgeons, as well as distinguished guests and speakers from all over the world to provide the attendants a spectacular environment for professional formation and social interaction.

The 9th Congress promises to be the most attended yet, since we proudly host Joint Meetings with two fellow continental Neurosurgical Societies – the Czech Neurosurgical Society and Swiss Society of Neurosurgery, but also co-organize a spectacular Symposium on cerebrospinal fluid physiology and pathophysiology with eminent guests from the Japan Neurosurgical Society.

An exhibition will be organized in the congress space, where you can present your products and services. For full details on sponsorship participation please contact our congress agency, whose representatives, together with you, will arrange the most appropriate sponsorship option that meets your specific requirements.

Thank you in advance for your support, we are looking forward to seeing you in Vodice!

Professor **Miroslav Vukic**, MD, PhD
